

Addition 1 Star

Use partitioning to work out these sums:

Example:

$$20 + 20 = 40$$

$$6 + 3 = 9$$

$$40 + 9 = 49$$

Use the method above to solve these sums. Copy each sum out onto another piece of paper so you have room to show your method.

- $18 + 21$

- $32 + 16$

- $35 + 12$

- $33 + 23$

- $27 + 13$

- $22 + 30$

- $15 + 24$

- $16 + 22$

- $26 + 25$

- $13 + 32$

- $17 + 22$

- $21 + 17$

- $36 + 23$

- $11 + 23$

- $26 + 12$

- $31 + 27$

- $14 + 23$

- $15 + 31$

- $27 + 22$

- $12 + 24$
