

Addition 3 Star

Use partitioning to work out these sums:

Example:

$$80 + 20 = 100$$

$$6 + 3 = 9$$

$$100 + 9 = 109$$

Use the method above to solve these sums. Copy each sum out onto another piece of paper so you have room to show your method.

- $67 + 42$

- $91 + 17$

- $46 + 43$

- $71 + 23$

- $103 + 12$

- $71 + 37$

- $64 + 23$

- $15 + 31$

- $67 + 22$

- $12 + 74$

- $77 + 41$

- $96 + 17$

- $56 + 45$

- $61 + 33$

- $112 + 22$

- $74 + 37$

- $69 + 21$

- $55 + 31$

- $87 + 22$

- $42 + 64$
