

How to turn anything into a dog?

- First add 5 kilograms of red, raw, juicy beef.
- After that add 1 kilogram of strong, thick, white chalk cylinders.
- Source a modern-day computer for his brain (add very carefully).
- Next select 2 cuddly teddy bears, along with white fluffy wool.
- Lastly throw in a pair of soft, waterproof slippers for his paws.
- To make this spell work put the items into the pot and put on the lid and tap five times and say abracadabra.

- Enjoy

new

your

dog.
