

L.O: To find 1 more/less and 10 more/less

## Worksheet 1

| What is 1 less? | Start number | What is 1 more? |
|-----------------|--------------|-----------------|
| 22              | 23           | 24              |
|                 | 45           |                 |
|                 | 71           |                 |
|                 | 38           |                 |
|                 | 64           |                 |
|                 | 29           |                 |
|                 | 82           |                 |
|                 | 56           |                 |
|                 | 31           |                 |
|                 | 95           |                 |
|                 | 78           |                 |
|                 | 110          |                 |
|                 | 118          |                 |
|                 | 125          |                 |

| What is 10 less? | Start number | What is 10 more? |
|------------------|--------------|------------------|
| 13               | 23           | 33               |
|                  | 45           |                  |
|                  | 71           |                  |
|                  | 38           |                  |
|                  | 64           |                  |
|                  | 29           |                  |
|                  | 82           |                  |
|                  | 56           |                  |
|                  | 31           |                  |
|                  | 95           |                  |
|                  | 78           |                  |
|                  | 110          |                  |
|                  | 118          |                  |
|                  | 125          |                  |

L.O: To find 1 more/less and 10 more/less

## Worksheet 2

| What is 1 less? | Start number | What is 1 more? |
|-----------------|--------------|-----------------|
| 22              | 23           | 24              |
|                 | 14           |                 |
|                 | 18           |                 |
|                 | 21           |                 |
|                 | 25           |                 |
|                 | 29           |                 |
|                 | 17           |                 |
|                 | 32           |                 |
|                 | 11           |                 |
|                 | 36           |                 |
|                 | 43           |                 |
|                 | 44           |                 |
|                 | 47           |                 |
|                 | 50           |                 |

| What is 10 less? | Start number | What is 10 more? |
|------------------|--------------|------------------|
| 13               | 23           | 33               |
|                  | 14           |                  |
|                  | 18           |                  |
|                  | 21           |                  |
|                  | 25           |                  |
|                  | 29           |                  |
|                  | 17           |                  |
|                  | 32           |                  |
|                  | 11           |                  |
|                  | 36           |                  |
|                  | 43           |                  |
|                  | 44           |                  |
|                  | 47           |                  |
|                  | 50           |                  |

L.O: To find 1 more/less and 10 more/less
