

How to Make a Graduation Cap

You will need:

cardboard from a cereal box

large paper bowl

wool

push pin

PVA glue

scissors

sticky tape

paintbrush

paint

Instructions

1. Cut a 22.5 x 22.5cm square out of the cereal box.
2. Paint both sides of the cardboard and the outside of the paper bowl black. Add a little PVA to the black paint to add some gloss.
3. Using a pen or sharp object, make a hole in the centre of the black square.
4. Cut 5-6cm of wool and tie in a knot at both ends. Using a push pin, attach the wool (tassel) to the top of the cap.
5. Use PVA glue to stick the bottom of the paper bowl to the bottom of the square. Firmly press the cardboard square down on top of it. Then leave to dry.
