

Everyday Hero Lyrics

Verse

You don't need a cape and mask

You don't need to run super-fast

You don't need to fly and touch the sky

To be a hero

The only power that you need

Is inside every human being

If we let our power shine

We can change the world

One smile at a time

Chorus

We'll be everyday heroes

Say something kind each day

Share your things when you play

The little things we do each day

Can make the world a better place

Repeat Verse and Chorus

Chorus x 2
